A/C#                                    D  
Our God so selfless, You went before us  
F#m                                    Esus4  
Gave Your Own Son to die  
A/C#                                    D  
Exchanged for freedom, everlasting  
F#m                                    Esus4  
His death for my life

Sin and shame and every sickness  
Put to death when you died  
Now You're risen, risen in Glory  
Shadows flee from Your Light
